

# The Pig, The Worms & You! PT. 4

Three weeks have passed, and you may be one who have read the facts on why **“Pork”** should not be sold, touched or cooked, hence, should not be: **EATEN!** But still, “Christians” and non-Christians alike are continuing to be apart of the world: **“The Pork Eating Epidemic!”** Thereby, many are indeed **‘sickly’** and ready to die. In fact: Hospital beds are filled, all because God’s children are eating and drinking those things which are totally forbidden by the Word of God. Notwithstanding, many are on the record saying: **“I’ll EAT and DRINK as I please, why; I AM NOT CONVICTED!”** No wonder, the Bible states: **“Be not over much wicked (pork-eaters), neither be thou foolish (rum/beer drinkers): why shouldst thou ‘die before thy time?’ ECCLESIASTES 7:17.**

Friends, because of **‘trichinosis becoming so widely spread’** and its **INCURABLE NATURE, ‘medical men’** (thank God) have become deeply concerned over the **‘health problem’** which it brings to American people. In the January, 1942, issue of Life and Health, there appeared an article by the Honorable T. C. Desmond, chairman of the Trichinosis Commission of New York state. The article was entitled **“One in Six is Infected with Deadly Pork Parasite.”** In this treatise (discourse) he states that, **“One out of every twenty-five pork products purchased over the retail counter was found by our commission to contain the parasites. It has been estimated that our (USA) present hog crop may provide us with ‘60,000,000 trichinae-infested meals.’”**

In fact, **“If you examine carefully you will find a small abrasion behind the front foot of the pig. Rub it off clean and press the leg, just above the abrasion, and you may ‘squeeze a teaspoonful of dirty matter from it.’ ‘This is (what they call) original pork gravy,’ that’s right. It is an ‘outlet to a sewer-pipe’ that may be traced ALL through the animal’s body. It helps to ‘drain off the teeming filth’ with which the system is filled. Hence, if this ‘external opening becomes clogged,’ the animal will run about and grunt and rub his leg on anything handy, and manifest great pain. He seems almost to know that he will soon SICKEN of so-called ‘cholera and blood-poison,’ and DIE of his own ‘internal filth,’ unless he keeps this sewer open.”**

Sadly, many will read the facts and say: **“Something gatta carry-ya.”** I am just as good as you are, they say, even though I **DO** eat pork. On the other hand, there are some who say: **“If eating a little pork is going to send me to hell, then I will GO to hell!”** Hence: **“They are willing to stand aside teachings of the Holy Wirt, and by so doing, their: “end [is] destruction, whose God [is their] BELLY.” PHILIPPIANS 3:19.**

So, write what you wish brother; until I am **“CONVICTED”** I am going to keep on eating me some: **PORK! Excuse-Me!** My pork-eating friend, are you saying that the man who just loves to sexually molest little girls and boys should not stop until he’s **CONVICTED?** How about those who live to rob and rob to live, can they also continue until they likewise are **CONVICTED?** Let’s not forget the man who spends his whole paycheck on the **“number-game”** or at the **“club”**, is he not to stop until **CONVICTION** comes home to his heart? Friends, too many times we allow our **‘feelings’** to stand in the way of a thus said the Lord. When the Bible is clear that: **“...the fearful, and unbelieving, and the abominable (pork-consumers Deut. 14:3, 8), and murderers, and whoremongers, and sorcerers, and idolaters, and all (pastors who tell us to eat the things God said are unclean are called) liars (in the courts of heaven, hence they and all who believe them), shall have their part in the lake which burneth with fire and brimstone: which is the second death. “REVELATION 21:8.** Next week, we will explore some of the **Biblical** texts which are taken out of context, by today’s so-called **‘Biblical scholars’**. Hence, selling, buying and eating forbidding meats are **MONEY** in bank for today’s health care professionals!

## MEAT AND COLON CANCER – PART 3

How does saturated fat react in our bodies to increase our susceptibility to colon cancer? It reacts in at least two ways:

1. Higher fat diets increase the excretion of bile acids that may in turn act as tumor promoters.
2. People on a meat-based diet alter the chemical activities of the normal germs that live in their bowels.

One change is an increase in the ability of these organisms to turn bile acids into potential carcinogens. For instance, reducing beef fat intake decreases the amount of these carcinogens. Although the Harvard-based Nurses’ Health Study fixed blame on saturated fat, it also suggested that there were more problems with red meat than merely its fat content. The data showed a greater colon cancer risk from eating red meat sources than was explained by an analysis of saturated fat alone. This suggests that there are other factors in red meat that further increase colon cancer risks. Taken from the book **Proof Positive**, by Neil Nedley. **It’s Time to Eat Right!**
